Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Representative for applicant requested clarification of the interpretation of claim 1 with respect to the above art. Examiner asserted that the threads of the post and threaded insertion portion are considered "fixed relative" to one another at least when the invention is fixed and assembled for use. Examiner agreed that adding to the claim language "are fixed relative in a disassembled state" would overcome at least the above prior art because the threaded portions of Tatar can move polyaxially when disassembled. Additional amendments may require further search and consideration..
